Penguins

Interactive Teaching Solution

IQView E3821 can transmit real time video and images captured into interactive whiteboards or flat panel (such as IQBoard, IQTouch etc.). This solution allows the teacher to capture and present students' learning procedure, groups' learning contrast, and group learning discussion. Teachers could explain and annotate at any time. And students could present their homework and share their learning process on their own seats.The solution can reach teachers' interactive and cultivates students' interest and presentation skills.

| Solution contains	Quantity	Remarks
IQView E3821	1 pc	Compulsory
IQ wireless teaching assistant software	1 pc	Compulsory
Interactive display	1 pc	IQBoard, IQTouch, IQAiO

Specification

Model	E3821
Appearance	360° swan neck design
Camera	8M Pixel
Shooting Size	A2
Work Mode	WiFi
Secondary Lightsource	Touching high light LED
Sensor	HD CMOS
Image Format	JPG, TIF, GIF, BMP, PNG
Video Format	MP4, FLV
Operation System	WinXP/Vista/Win7/Win8/Win10
Connection Way	Wireless WiFi multi-point connection
WLAN Card	300Mbps, Random distribution

*Specifications are subject to change without notice. *All dimensions±1cm.
